

B3 39 B 35. (AMENDED) The system of Claim 1, wherein the data storage comprises a plurality of databases, each database associated with one or more tasks associated with a client application or indicative of a relationship between the client application and the database.

B4 20 35. (AMENDED) The system of Claim 22, wherein the data storage comprises a plurality of databases, each database associated with one or more tasks associated with a client application or indicative of a relationship between the client application and the database.

B5 24 37. (AMENDED) The system of Claim 29, wherein a one of the data storages comprises a plurality of databases, each database associated with one or more tasks associated with a client application or indicative of a relationship between the client application and the database.

REMARKS

Applicant has amended Claims 31, 33, 35, 37. Claims 1-30, 32, 34, 36, and 38-40 remain unchanged. Claims 1-40 are thus presented for examination. Reconsideration and allowance of all Claims 1-40 in light of the present remarks is respectfully requested.

The specific changes to the specification and claims are shown on a separate set of pages attached hereto and entitled VERSION WITH MARKINGS TO SHOW CHANGES MADE, which follows the signature page of this Amendment. On this set of pages, the insertions are double underlined while the ~~deletions are struck through~~.

The specification has been amended to update the Related Application section with the issued patent number and date as requested by the Examiner.

Discussion of the Claim Rejection under 35 U.S.C. § 102(e)

Claims 1-19 and 21-40 were rejected under 35 U.S.C. § 102(e) as being anticipated by Jackson Jr. ("Jackson"), U.S. Patent No. 5,819,274. Claims 1-30 were rejected under 35 U.S.C. § 102(b) as being anticipated by "Managing the Mail-strom" hereinafter Lotus' cc:Mail product.

Applicant's Claim 1 recites that the server computer comprises a data storage and a session module, and that the portable client device comprises a client database and a
